ISRAA AYMAN DAIF

Telecommunications & AI Engineer

Al Ain, UAE | +971 52 491 0964 | Israaaymandaif@gmail.com | linkedin.com/in/israa-ayman-daif | github.com/Israaaymandaif

PROFILE

Telecommunications & AI Engineer with a B.Sc. in Communications and Electronics Engineering, currently preparing telecommunications and electrical drawings (AutoCAD) and supporting AI-driven automation projects at a UAE consulting engineering firm. Builds AI-powered tools (Python, Streamlit, Groq API, LLaMA, Supabase) to support engineering and business workflows. Brings 8+ years of combined professional experience — spanning marketing, community leadership, and now engineering — with strong stakeholder communication and cross-functional coordination skills that support reliable engineering delivery.

TECHNICAL SKILLS

- Telecommunications & Electrical Engineering: AutoCAD drawings, telecom/electrical design support, IoT systems
- AI & Data: Python, SQL, Streamlit, Groq API, LLaMA, Supabase, Prompt Engineering, Scikit-learn, Machine Learning
- Tools & Other: Microsoft Office, Canva, Meta Business Suite, GitHub, Digital Marketing, SEO, Content Strategy

PROFESSIONAL EXPERIENCE

Telecommunications & AI Engineer | Stanford Consulting Engineering
December 2025 – Present | Al Ain, UAE

- Prepare telecommunications and electrical drawings using AutoCAD.
- Support AI solution development and automation projects.
- Collaborate with engineering teams to deliver project requirements.
- Contribute to digital transformation initiatives.
- Additional responsibilities: manage IT support and internal technical systems; plan and manage the company's digital marketing activities.

Marketing Executive | Edutech Labs F.Z.E
August 2025 – November 2025 | UAE

- Managed customer communications, shipment logistics, and cross-functional coordination to support daily business operations.

Educational Support Assistant (Online) | Edutech Labs
April 2025 – July 2025 | Cairo, Egypt

Guided students through IELTS/TOEFL registration and supported their learning journey; maintained accurate records.

Organizer | GDG New Cairo
September 2024 – Present | Cairo, Egypt

- Organize technology events, workshops, and developer community activities; coordinate with speakers, volunteers, and partners.

Prior to focusing full-time on engineering, held the following short-term, project-based roles:

Head of Non-Technical | MYM Company
September 2023 – December 2023 | Cairo, Egypt

- Led recruitment and PR activities for the non-technical department; increased media coverage by 20% through strategic PR initiatives.

Mentor, GDSC (Google Developer Student Club) | Google — Delta University
September 2022 – September 2023 | Egypt

- Mentored students in machine learning, Android development, Flutter, and Google Cloud; delivered technical workshops.

PROJECTS

Stanford AI Assistant — Live Demo

- Developed an AI-powered assistant (Python, Streamlit, Groq API, LLaMA, Supabase) with an Arabic-friendly interface and secure authentication to support engineering workflows.

Heart Disease Prediction Model

- Built and evaluated multiple machine learning algorithms (Python, Scikit-learn) to predict heart disease, including preprocessing, visualization, and feature selection.

Smart Wheelchair Based on IoT (Grade: A+)

- Designed an IoT-based smart wheelchair with health-monitoring sensors (heart rate, oxygen, temperature, glucose), emergency alerts, and head-motion control.

EDUCATION

IBM Data Science — DEPI
April 2024 – October 2024 | Mansoura, Egypt

- Developed expertise in data analysis, machine learning, and big data techniques using Python.

Advanced Diploma, Communications and Electronics — Zagazig University
February 2024 – July 2024 | Grade: 3.65

Basic Diploma, Communications and Electronics — Zagazig University
September 2023 – January 2024 | Grade: 3.36

B.Sc. Communications and Electronics Engineering — Faculty of Engineering, Delta University
September 2018 – July 2023 | Gamsa, Egypt | Grade: 3.671

- GDSC Lead; organized GDSC Delta Day & Bootcamp; Co-founder of Helpers Initiative.

CERTIFICATES

- Google I/O Extended Egypt 2023 — Program Manager
- AI & Data Science Program — Ministry of Communications & Information Technology (MCIT)
- IBM Data Science Track — DEPI (2024)
- Business English — OTO Course
- AI Development — Instant Software & Solution
- AI for MS Office Professionals — Almentor (2026)
- Kickstart Your Career in Tech — BambooGeeks
- Generative AI & Machine Learning with Python — LinkedIn Learning
